# About Us

## Our history

began when Amin's family has worked in the manual manufacturing of gelatin since 1936 in the tanneries of Old Cairo district. By time, Engineer Ahmed Amin developed the manual manufacturing process of gelatin to become one of the pioneers in the gelatin industry in Egypt.

Due to business growth in 2003, Eng. Ahmed Amin has founded El-Amin for Gelatin Company as a high-tech factory located in the 3rd Industrial zone in 6th of October City, Giza, Egypt.

Since then, our competitive advantage is to produce a very high quality of gelatin with competitive price to serve the Pharma, Food, Cosmetics & other industries not only in Egypt but also in different countries all over the world i.e. USA, Tunisia, Algeria, Saudi Arabia, Germany, Jordan, Serbia, Spain, and Syria.

# Vision

Based on our heritage, we aspire to continually grow and expand globally to be one of the top leading producers of gelatin and collagen to serve several industries all over the world.

# Mission

Our goal is to exceed our customers' expectations. We seek to lead the market by combining scientific innovations and competitive pricing which ultimately gives us a competitive edge in both the local and global market. What makes us stand out even more is our agility in the market.

# Our Core Values

# Efficiency

As a company, we believe in the importance of working smarter rather than harder that is why we implement the "efficiency triangle" which positively affects our competitiveness and business growth. Our aim is to make a balance between high-quality products and competitive pricing. We also have a well-established Research and Development Department that is managed by high calibers to guarantee our excellence in the market
